General Statement of Professional Experience (written by firm)

Swiftcurrent Engineering offers comprehensive electrical engineering and lighting design services for Commercial, Institutional, Educational, and Industrial clients. Swiftcurrent Engineering was established in 2004 by Tim Matthews, PE. We are pleased to offer our services to clients throughout New England from our office in Yarmouth, Maine.

Swiftcurrent's technical staff offers nearly 40 years of combined experience in the design of power distribution, lighting design, fire alarm systems, emergency power and generator systems.

A majority of our clients are repeat clients who continuously contract with Swiftcurrent Engineering to provide them with quality design services. Our goal is to meet our clients' needs, stay within budget, and provide them with the best design solutions. Our system designs are reliable, sustainable, and prove to be the most economical for long-term needs.
